Full Stack Engineer | Cloud & Front-End Development Specialist

Results-driven full-stack engineer with 4+ years of experience building responsive, high-traffic web applications and backend services. Skilled in **Python, React, Angular, Node.js, Express, SQL, and cloud environments (AWS, Azure)**. Experienced in API development, microservices architecture, DevOps processes, and Agile methodologies. Adept at collaborating with cross-functional teams to deliver secure, scalable, and maintainable solutions.

TECHNICAL SKILLS

- **Programming & Frameworks:** Python, JavaScript, TypeScript, React, Angular, Node.js, Express, HTML5, CSS3
- **Databases & Storage:** SQL Server, PostgreSQL, MySQL, MongoDB
- **Cloud & DevOps:** AWS, Azure, GitHub Actions, Jenkins, Docker, Azure DevOps (ADO)
- **APIs & Integration:** RESTful APIs, Microservices, OAuth, JSON Web Tokens (JWT), Expo
- **Tools & Collaboration:** Jira, Agile/Scrum, Postman, Git

PROFESSIONAL EXPERIENCE

Full Stack Developer
Jack Sawyer Software, Seattle, WA | Nov 2022 – Present

- Built and maintained **full-stack applications** with **React, Angular, Node.js, Express, Python, and SQL databases**, delivering scalable and secure solutions.
- Designed and implemented **REST APIs and microservices** for data integration and backend functionality.
- Managed **cloud environments (AWS, Azure)** for hosting, deployment, and operational support.
- Conducted **code reviews, debugging, and functional testing** to ensure maintainable and high-quality code.
- Collaborated with cross-functional teams to translate business requirements into scalable technical solutions.

Software Engineer | Generative AI & Web Development
Scale AI, San Francisco Bay Area | Jan 2024 – Jun 2025

- Developed backend services using **Python** and implemented **data pipelines** for AI-driven workflows.
- Built and maintained APIs and handled **microservice integration** for multiple internal projects.
- Participated in **DevOps pipelines** with **Azure DevOps and GitHub Actions**, supporting continuous integration and deployment.
- Assisted in operational support, performance optimization, and bug resolution for production systems.

Managing Director
Bishop Motion Pictures, Redmond, WA | Sep 2010 – Dec 2020

- Led **front-end web development projects** using HTML, CSS, and JavaScript to deliver creative content platforms.
- Managed content and media infrastructure on cloud-based systems.
- Collaborated with creative and technical teams to ensure consistent and reliable project delivery.

EDUCATION & CERTIFICATIONS

- Self-Taught / Professional Experience in Full Stack & Cloud Development
- Ongoing hands-on experience with **Python, React, Angular, Node.js, Express, SQL, and AWS/Azure cloud**
